

C-300 Chiller

100W@20°C

-10°C ~ +100°C ±0.1°C

This product is mainly used in the production line of 5G optical module to detect the performance of optical module parameters under extreme temperature changes(0°C-80°C).

Specification:

Process Circulating Liquid	Distilled Water
Interface Type	RS485
Rated Voltage	1-phase AC110/208V±10% 50/60Hz 2.5/5A
Dimension	Chiller: H 15 cm x D 30 cm x W 30 cm
	Controller: H 21 cm x H 21 cm x W 58c m
Weight	Chiller: 10KG ; Controller: 15KG

Advantages:

- Customizable Products. ISO 9000
- No noise.
- Fast temperature response.
- Lower energy consumption.
- Environmentally friendly. (No Freon)
- High reliability. MTBF > 5 years
